I see in the Gradebook in Sakai there is a line item for NewtonRaphson/Fisher Scoring. Was this an in-class activity? I do not see any associated Campuswire post or assignment in Sakai. Thanks!

I completely understand if this is not allowed at this point, but would I still be able to comment on the discussion? I apologize but I initially thought that post was just for resources on the topic rather than a designated discussion, and I didn't see that it was updated recently.
